The Labophot 2 has a more rounded appearance, slightly less utilitarian look, following the Optiphot 2. I have yet to see a Labophot 2 that had its lamp house intact, whereas the original Labophot seems to have less of an issue with this. One of the principal points of failure is the condenser stage, with a rack and pinion drive.

Nikon Labophot-2 Microscope - All Nikon E Plan 4x, 10x ...

1) The dovetail is 52mm O.D. whereas the Labophot (and Nikon S series microscopes) use a 49mm O.D. dovetail. I tried the head on the Labophot, but as expected the dovetail is too big to fit. A simple adapter can fix this. 2) The head contains a Tube Lens for the infinity optics. This means this head will not make an image with objectives that ...

Nikon Labophot Microscope - PRC68.com

This LED illuminator replaces the original Nikon Labophot 2 illuminator. Provides a whiter, brighter light than the original, while consuming 90% less energy and generating 90% less heat. Intensity control is continuous from 0-100%. Problems with heat damaged bulb sockets, connector and power supply failure are all eliminated.

Nikon Microscopes Models Review: Optiphot, Labophot Eclipse 50i and E100. From the time the first Nikon compound monocular microscopes were produced in 1917, Nikon microscopes continued to evolve over the next seven decades; in the late 1970s and early 1980s, they introduced the Optiphot and Labophot models. Many labs and schools still choose to use these older, durable models.
