Scent And The Scenting Dog

I could understand better how the scent affects trailing dogs, tracking dogs, and air scenting dogs. Also, how the disciplines overlap sometimes, and also reinforced a few decisions I had made while working the dogs, but had wondered if I had done the right thing. I had,

Scenting Dog - read online - Ilko ...

Airborne scent is concentrated near its source, follows the air currents, and becomes more dilute the further it travels. An air scenting SAR dog is especially trained to locate the scent of any human in a specific area and close in on the source of the scent, and can do so from hundreds of metres away, in heavy bush or

in the dark.

Using Air Scent Dogs

Not only do dogs have hundreds of millions of scent receptors as compared our six million, but they also devote approximately 40 times more brain volume to decoding smells than we do. This means that dogs are able to understand scent in a way that's difficult for us to comprehend. A dog's
